Professional Summary

As an excellent communicator and organized critical thinker, I am eager to apply my diverse skill set and talents to an emerging company like yours. I am excited about the opportunity to expand my expertise across various technologies through challenging projects, working collaboratively with development teams to achieve well-defined goals. Specifically, I would welcome the chance to contribute to building your website, designing your app, or developing your game.

Experience

Board of Advisors Member - IT and Systems Manager

The Fellowship Center of Danbury (2022 - Present)

- Actively lead all technical details of the organization.
- Manage all website responsibilities including design and publication.
- Implemented new hardware into the network to make the required security software run smoother.
- Collaborate with the team on decisions to advance technical organization.
- Improved community access by launching a new website version in months.
- Manages security, ensuring smooth operation of cameras and locks via remote systems.
- Facilitated improvements to Internet Speeds, resulting in an upgrade to the modern age of 500MB on a business network.
- Accommodate large organized events and effectively communicate to the community.
- Propose cost-efficient hardware and software solutions .

Board of Directors Member

New Fairfield Sherman Animal Welfare (2023 - 2024)

- Worked as a team member in deciding the direction of the Animal Shelter.
- Coordinated governance efforts, project management, event planning, and fundraising.
- Chaired a committee to host a live stream event for a fundraiser. Supplied the technology, conducted the AV work, and delivered an uninterrupted feed. The event raised over \$20k.
- Assessed the older technology and found upgrades while salvaging data off expired systems.
